SKILLS

- ReactJS
- NextJS
- Django
- Flask
- JavaScript
- Python
- Git/GitHub
- PostgreSQL
- Linux
- REST API
- Web-Based Software Engineering

EXPERIENCE

Uobis

Software Engineer

May, 2019 – PRESENT

- Built a Financial application to aid a multipurpose cooperative society automating and improving processes and services; cutting down manual workload by more than 50% and improving overall user experience
- Revamped and currently managing a project with a few hundred active users
- Managed existing applications, and as well, designed and delivered new applications based on request
- Spearheaded 3 projects through planning, development, and deployment phases, coordinated with the client, and developed project specifications through customer requirements
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Analysed proposed technical solutions based on customer requirements.
- Participated in architecture, design and implementation of back-end features using ReactJS, NextJS, Django, Flask, Python, HTML, CSS, SASS and JavaScript.

Bluescripts IT Institute

Programming Instructor

November, 2021 – October, 2022

- Trained 12 students in total on the fundamentals of web development and software engineering.
- Enabled underachieving students to reach target attainment levels by providing individualised coaching and activities.
- Provided homework assistance using specific curriculum and materials.
- Provided appropriate learning materials for students.
- Leveraged technology and visual aids to engage students and enhance learning.

Hephzibah Institute of Computer Technology

Software Engineer Intern

February, 2018 – August, 2018

- Brainstormed with the engineering team to determine appropriate code testing processes.

- Worked with developers to identify and remove software bugs.

- Partnered with team members to learn best practices in software design.

- Created interactive websites and applications with software development department using HTML, CSS, SASS, Bootstrap framework and Java Programming Language.

- Collaborated effectively with members of the software development team and personnel in other departments.

EDUCATION

Michael Okpara University of Agriculture
Bachelor of Engineering – Computer Engineering

December, 2014 – May, 2021

- Graduated with **Upper Second-Class Honours**.

PROJECTS

9Mileon

- This is a web financial platform which helps customers self-finance their businesses through loans and remittance.
- 9Mileon is hosted at 9mileon.com
